

AAYODHYAM 2026 RULEBOOK

National Level Metallurgy Hackathon

Walchand College of Engineering, Sangli | Department of Mechanical Engineering

1. Team Structure & Eligibility

- You can form a team with a minimum of 1 and a maximum of 3 registered members from your institution.
- You must be a B.Tech 2nd or 3rd year student enrolled in a recognized engineering institution in India.
- You must designate one Team Leader to communicate with organizers.
- You cannot make last minute substitutions without prior approval from the event committee.

2. Online Registration

- You must pay a nonrefundable registration fee of ₹300 per team.
- You must register through the official Aayodhyam Website between August 8, 2026, and August 10, 2026.
- Your registration is confirmed only after payment verification.
- You must choose from 10 distinct problem statements.
- You cannot opt for a problem statement that already has 8 teams registered. We assign statements on a first come first serve basis, and you cannot change your problem statement after registration.

3. General Work Instructions

- You must capture all processes, results, treatments, and images with GPS location tracking enabled (geotagged photos).
- You must clearly state whether you carried out the work inside your college laboratory or at an outside facility.
- You must maintain photographic and documentary evidence at every stage of processing.
- You must keep the sample identification stamp or marking visible throughout processing.
- You must present your treatment parameters, evaluation and measurement methods, and final test results in your PPT.
- We will provide the exact material type and grade of the sample.

- We will conduct this evaluation at Walchand College of Engineering, Sangli.

4. Event Format & Rules of Play

4.1 Material Distribution

- We will provide all teams with a standardized material relevant to your opted problem statement.
- You must collect your material in person from Walchand College of Engineering, Sangli, between August 10, 2026, and August 14, 2026.
- You can opt for courier service by contacting the event organizers (additional charges apply).
- You must verify your material has the Aayodhyam logo engraved on it. We will not entertain claims of missing or defective starting materials.
- If the Ayodhyam logo is missing during the final inspection, we will disqualify you immediately.
- You must not use outside raw materials or previously prepared alloys.

4.2 Execution Phase

- You must complete your metallurgical processes (e.g., heat treatment, cold working, casting, metallography) before September 18, 2026.
- You must maintain a logbook detailing your chosen parameters (e.g., furnace temperatures, holding times, quenching media) in your submission report.

5. Judging & Evaluation

- You must be present in person at Walchand College of Engineering, Sangli, on September 18, 2026, for judging and evaluation.
- If you registered for Delta ferrite, Cast iron nodularity, Automated grain size measurement, or Spark testing, you can opt for online evaluation before the judging and evaluation process begins by contacting the event organizer.
- All judging and evaluation decisions are final and binding. We will not entertain appeals.
- We will distribute prizes on September 18, 2026, in person.

6. WCE Lab Usage Policy

- WCE Laboratory facilities are available exclusively for final testing and microstructural evaluation during the judging and evaluation process.
- You must complete all preliminary processing and processing operations at your home institution under faculty permission and supervision before the judging and evaluation process begins.

- You must use the WCE Laboratory under the direct supervision of assigned faculty. Unsupervised access is strictly prohibited.
- You are responsible for any equipment damage caused by improper use.

7. Disqualification & Code of Conduct

- You must conduct all experimental work and analysis originally within your registered team.
- You must openly disclose the use of AI tools for any purpose in your submission report.

We will disqualify you for the following actions:

1. Sabotaging or tampering with another team's materials, equipment, or workspace.
2. Attempting to pass off previously prepared samples as work done during the competition.
3. Failing to show the Aayodhyam logo engraving during evaluation.
4. Plagiarizing written reports or fabricating experimental results.
5. Failing to attend evaluation in person.
6. Losing or destroying provided material for any reason.
